Re: International Uranium (USA)/Denison Mines (USA) Corporation Notice of Intent to Construct the Proposed Tony M Mine Project

Dear Mr. Blanchard:

Please be advised that International Uranium (USA) Corporation has changed its name to Denison Mines (USA) Corp. to coincide with a change of name of its parent company from International Uranium Corporation to Denison Mines Corp., resulting from the merger of International Uranium Corporation with Denison Mines Inc. Other than this change of name, the ownership, management and assets of International Uranium (USA) Corporation (now Denison Mines (USA) Corp.) remains substantially unchanged.

Please find attached with this letter the Notice of Intent to Construct the Proposed Tony M Mine Project. As described in this Notice of Intent, the Tony M Mine project is a proposed underground uranium mine in southeast Utah.

This submittal includes a report of dispersion modeling results; all required emission unit application forms, and associated maps and descriptions (Attachment A); and an electronic copy of modeling files (Attachment B). We look forward to working with you to obtain approval of this Notice of Intent to Construct the Proposed Tony M Mine Project. E-mail contacts for this project are:

Melissa Weakley, Tetra Tech:
Eric Farstad, Tetra Tech:
Michelle Rehmann Gipson:
Harold Roberts, Denison Mines (USA) Corp.:
